PROFESSIONAL PROFILE

I am an Information Technology student at the University of Embu with a strong interest in web development and software engineering. I enjoy building responsive, interactive and user-focused digital experiences while continuously improving my technical skills.

My current development focus includes React, Next.js, TypeScript, Tailwind CSS, JavaScript, Node.js, APIs and Git/GitHub. I learn primarily through practical projects and hands-on problem solving.

My long-term goal is to become a professional full-stack web developer capable of designing and developing reliable, scalable and useful web applications.

EDUCATION

Bachelor of Science in Information Technology — University of Embu

2023 – Present

TECHNICAL SKILLS

Development: HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Node.js

Tools: Git, GitHub, VS Code

Other: Responsive Web Design, API Integration, Basic Backend Development, Digital Record Management, Basic IT Troubleshooting

INDUSTRIAL ATTACHMENT EXPERIENCE

IT Industrial Attachment Trainee — Huduma Centre Embu

May 2026 – August 2026

Worked with computer-based systems and digital platforms used in service delivery. Assisted with data entry, document processing and digital record management, supported clients using computer systems and digital service platforms, and gained practical experience in basic IT troubleshooting and technical support.

Worked across Pension, ID & NPR, NTSA, SHA, Customer Care and KRA service sections, developing practical skills in information handling, communication and technology-supported service delivery.

SELECTED PROJECTS

Personal Portfolio Website

A modern responsive portfolio website built to showcase my skills, projects and development journey.

[Next.js](#) • [React](#) • [TypeScript](#) • [Tailwind CSS](#)

Functional Contact Form System

A functional contact system allowing visitors to submit messages through a website and have them processed through an API and email service.

[Next.js](#) • [Node.js](#) • [API Routes](#) • [Nodemailer](#)

Business Website

A professional business website concept designed to showcase services and help businesses establish an online presence.

[HTML](#) • [CSS](#) • [JavaScript](#)

CAREER OBJECTIVE

To gain professional experience in web development and software engineering while continuously improving my technical skills. I aim to contribute to real-world projects and develop reliable, responsive and user-focused digital solutions.
